

## Description

Stripper 16J is an especially effective formulation specifically developed for stripping epoxies, polyurethane, and other difficult to remove organic coating from aircraft surfaces.

- » **Evaporation:** Self-forming surface film retards evaporation and extends working life.
- » **Appearance:** Stripper 16J is a translucent thixotropic liquid.
- » **Corrosion:** Stripper 16J is safe for use on aluminum, mild steel, and cad plate.
- » ***This product is not safe on high strength steel.***

## Method of Use

### Application Methods

- » Spray
- » Brush

### Application Instructions

- » Apply full strength as received.
- » Allow sufficient dwell time for thorough loosening or blistering of the paint.
- » When the paint is loosened, thoroughly agitate all areas with a stiff brush.
- » If paint is still adhering in some areas, reapply and allow additional time before rinsing.
- » Stripper 16J and paint residues may be rinsed with high pressure, high volume cold water or with a steam cleaning machine. Slight brushing during the rinse operation insures complete removal of all residues.

### Equipment

- » Spray on with a non-atomizing sprayer. Product may also be applied by brush.
- » When brush applied, daub to give a thick coating. Do not brush as with paint.

## Caution

Contains chlorinated solvents and organic acids. Avoid contact with skin, eyes, and clothing. Use with adequate ventilation. Face shields with goggles and protective solvent-resistant gloves and clothing are required for using personnel. In case of accidental contact with skin, wash thoroughly with soap and water, and rinse with alcohol containing 2% Camphor. For eyes, flush with copious amounts of water and seek medical attention.

**Stripper 16J meets will attack plastics;** therefore, plexiglass windows should be protected. Also protect rubber window seals and tires. Avoid contamination with water. Stripper 16J may cause pitting of aluminum or magnesium when contaminated with water. ***This product is not safe on high strength steel.*** Refer to product labels and Safety Data Sheets for precautionary and handling information.
